

D. ANDREW BROWN
dandrewbrown.com

School of Mathematical and Statistical Sciences
Martin Hall, O-309
Clemson University
Clemson, SC 29634-0975
(864) 656-1716
ab7@g.clemson.edu

RESEARCH INTERESTS

Bayesian statistics, neuroimaging data analysis, large-scale inference, computer model validation, uncertainty quantification

ACADEMIC POSITIONS

School of Mathematical and Statistical Sciences, Clemson University, Clemson, SC
Assistant Professor August 2013 - Present

Statistical and Applied Mathematical Sciences Institute, Research Triangle Park, NC
Visiting Research Fellow January 2016 - May 2016

PROFESSIONAL EXPERIENCE

Vistakon, Johnson & Johnson Vision Care, Inc., Jacksonville, FL
Biostatistics Intern May 2011 - August 2011

Porsche Cars North America, Inc., Atlanta, GA
Information Technology Intern December 2007 - July 2008

EDUCATION

Department of Statistics, University of Georgia, Athens, GA
Ph.D. in Statistics August 2013
Dissertation: *Bayesian Multiple Testing Under Dependence with Application to Functional Magnetic Resonance Imaging*

Major Professors: Gauri S. Datta and Nicole A. Lazar

M.S. in Statistics August 2010

SUPPORTED RESEARCH

Grants

“A Multiscale, Multiphysics Modeling Framework for Genome-to-Phenome Mapping via Intermediate Phenotypes,” National Science Foundation, Senior Personnel, \$2,999,998 (2018-2022).

Transformative Initiative for Generating Extramural Research (TIGER): “Accelerating the data collection and analysis timeline for a funded NSF INCLUDES Launch Pilot to be competitive for a full NSF INCLUDES ALLIANCE proposal deadline,” Clemson University, Co-PI, \$14,631 (2018).

“Statewide Consortium: Supporting Underrepresented Populations in Precalculus by Organizational Redesign toward Engineering Diversity (SC:SUPPORTED),” National Science Foundation, Co-PI, \$299,994 (2017-2019).

“Preparing Resilient and Operationally Adaptive Communities through an Interdisciplinary, Venture-based Education (PROACTIVE),” (NSF Research Traineeship program), National Science Foundation, Senior Personnel, \$2,989,899 (2016-2021).

“Simulation-Based Design of Polymer Nanocomposites for Structural Applications,” National Science Foundation, Co-PI, \$427,724 (2016-2019).

“Model Validation Analytics in Support of High-Consequence Decision Making,” Department of Education (Graduate Assistance in Areas of National Need program), Co-PI, \$1,291,841 (2015-2019).

Fellowships

SAMSI Visiting Research Fellowship, National Science Foundation grant DMS-1127914 to the Statistical and Applied Mathematical Sciences Institute (2016).

Research Experience for Undergraduates Fellowship, National Science Foundation (2006).

TEACHING EXPERIENCE

School of Mathematical and Statistical Sciences, Clemson University

Courses taught:

MATH 8050 - Data Analysis	FA 2016, FA 2015, SP 2015, FA 2014, SP 2014
MATH 8020 - General Linear Hypothesis II	SP 2018, SP 2017
MATH 8010 - General Linear Hypothesis I	FA 2019, FA 2018, FA 2017, FA 2016
MATH 4/6000 - Theory of Probability	FA 2018, FA 2014
MATH 4020 - Statistics for Science and Engineering II	FA 2019
MATH 4910 - Independent Study	FA 2016
MATH 3020 - Statistics for Science and Engineering	FA 2017, FA 2015, SP 2014, FA 2013

Outstanding Teaching Assistant April 2010
University of Georgia

Mu Sigma Rho National Statistics Honor Society March 2010
Department of Statistics, University of Georgia

Graduate with Highest Honor December 2006
Georgia Institute of Technology

PROFESSIONAL MEMBERSHIPS

International Society for Bayesian Analysis October 2013 - Present
Eastern North American Region of the
International Biometric Society October 2013 - Present
American Statistical Association August 2008 - Present
Institute of Mathematical Statistics November 2010 - December 2018

OTHER ACTIVITIES AND SERVICE

Referee for the following journals:

Annals of Applied Statistics
Applied Stochastic Models in Business and Industry
Bayesian Analysis
Biometrics
Computer Methods in Applied Mechanics and Engineering
IIE Transactions
Journal of the American Statistical Association
Journal of Statistical Planning and Inference
NeuroImage
PLoS ONE
SIAM/ASA Journal on Uncertainty Quantification
Statistical Analysis and Data Mining
Statistics in Medicine

Invited Book Reviewer for *Biometrics*

Undergraduate Affairs Committee, Member November 2018 - Present
August 2014 - August 2015
School of Mathematical and Statistical Sciences, Clemson University

Industrial Statistics Section Treasurer January 2018 - Present
International Society for Bayesian Analysis

Chapter Treasurer July 2017 - Present
South Carolina Chapter of the American Statistical Association

Distinguished Speaker Series Committee, Chair July 2017 - Present
*Clemson University Program on Resilient Infrastructure in Environmental Systems
Engineering and Science (NSF National Research Traineeship)*

Clemson University Primary Liaison May 2017 - Present
National Institute of Statistical Sciences

ASA Student Chapter Faculty Advisor May 2017 - Present
Clemson University

NSF NRT Steering Committee, Member August 2016 - Present
*Clemson University Program on Resilient Infrastructure in Environmental Systems
Engineering and Science (NSF National Research Traineeship)*

Graduate Student Academic Advisor August 2014 - Present
School of Mathematical and Statistical Sciences, Clemson University

Undergraduate Student Academic Advisor August 2014 - Present
School of Mathematical and Statistical Sciences, Clemson University

Statistics and Probability Seminar Committee, Member August 2013 - Present
School of Mathematical and Statistical Sciences, Clemson University

Research Committee, Member August 2013 - Present
School of Mathematical and Statistical Sciences, Clemson University

Advanced Placement Statistics Exam, Reader June 2019, June 2017, June 2016,
June 2014, June 2013
Educational Testing Service

Advanced Placement Statistics Practice Exam, Reader/Question Leader
Clemson University April 2019, April 2018, April 2017, April 2016, April 2015, April 2014

Session Organizer for the ASA/IMS SPES Spring Research Conference May 2019

Session Chair at the following conferences:

Joint Statistical Meetings August 2017, August 2015
Workshop on Statistical Perspectives of Uncertainty Quantification May 2017
Eastern North American Region of the International Biometric Society (ENAR)
Spring Meeting March 2017

Clemson University Representative October 2014
Annual Business Meeting of the Southern Regional Council on Statistics (SRCOS)

FMRI Statistics Research Group, Member August 2009 - August 2013
University of Georgia

Student Statistics Club

Department of Statistics, University of Georgia

Member
Secretary

August 2008 - August 2013
August 2009 - August 2010

GRADUATE STUDENT ADVISING

Direction

Carl Ehrett, Ph.D. in Mathematical Sciences (in progress)
Kanon Kamronnahr, Ph.D. in Mathematical Sciences (in progress)
Boyoung Hur, Ph.D. in Mathematical Sciences (in progress)
Jiajing Niu, Ph.D. in Mathematical Sciences (in progress)
Aaron Moose, Ph.D. in Mathematical Sciences (in progress)
Aaron Moose, M.S. in Mathematical Sciences (December 2018), “Modeling match results in the English Premier League using a hierarchical Bayesian Poisson model”
Jun Yuan, M.S. in Mathematical Sciences (August 2018), “Bayesian calibration of computer models using the Gaussian process prior”
Jiajing Niu, M.S. in Mathematical Sciences (August 2018), “Identification of differences in cortical thickness in multiple sclerosis patients based on race”
Carl Ehrett, M.S. in Mathematical Sciences (May 2017), “Subset simulation with multivariate draw”
Michael Lamoreux, M.S. in Mathematical Sciences (May 2016), “Empirical null estimation via central matching with application to functional magnetic resonance imaging”
Jaqueline Kwiasowski, M.S. in Mathematical Sciences (August 2015), “Thresholding of statistical maps in functional neuroimaging via independent filtering”
Emily Nystrom, M.S. in Mathematical Sciences (May 2014), “Comparing error structures for statistical analysis of functional magnetic resonance imaging time series data,” co-advisor with Dr. Julia Sharp

Advisory Committees

Sanwar Ahmad, Ph.D. in Mathematical Sciences (in progress), “Comparison between mollifier method and Gauss-Newton method for tomography”
Evan Chodora, Ph.D. in Mechanical Engineering (in progress), “Establishing a convergent engineering and material design framework”
Fun Choi John Chan, Ph.D. in Mathematical Sciences (in progress)
Paul Cubre, Ph.D. in Mathematical Sciences (in progress)
Chase Joyner, Ph.D. in Mathematical Sciences (in progress)
Shyla Kupis, Ph.D. in Environmental Engineering (in progress)
Stefani Mokalled, Ph.D. in Mathematical Sciences (in progress)
Scott Scrugges, M.S. in Mathematical Sciences (in progress), “An efficient curve evolution algorithm for multiphase image segmentation”
Stella Watson, Ph.D. in Mathematical Sciences (in progress)
Megan Driscoll, M.S. in Mathematical Sciences (May 2019), “Comparing models for predicting the at-large bids for the 2019 NCAA basketball tournament”
Hannah Rollins, M.S. in Mathematical Sciences (May 2019), “High-dimensional methods for statistical genomics”

- Xiyan Tan, M.S. in Mathematical Sciences (December 2018), “Autocorrelation function estimation via penalized least squares method”
- Lu Sun, M.S. in Mathematical Sciences (August 2018), “Maximizing Airbnb hosts’ revenue in New York City: A case study of model selection methodologies using an Airbnb data set”
- Jing Li, M.S. in Mathematical Sciences (May 2017), “Data analysis of diverse learning environment survey data”
- Garrison Stevens, Ph.D. in Civil Engineering (August 2016), “Experiment-based validation and uncertainty quantification of partitioned models: Improving predictive capability of multi-scale plasticity models”
- Stella Watson, M.S. in Mathematical Sciences (August 2016), “A comparison of the point process and predictive process Gaussian spatial models with an application to land parcel data”
- Stefani Mokalled, M.S. in Mathematical Sciences (May 2016), “Estimating biomarker distributions via pooled assessments”
- Shiyi Tu, Ph.D. in Mathematical Sciences (December 2015), “Objective Bayesian analysis on the quantile regression”
- Yinggu Bao, M.S. in Mathematical Sciences (August 2015), “Analysis of peach gene expression data”
- Isaac Justus, M.S. in Mathematical Sciences (May 2015), “Quantifying information loss and time series predictions of housing utility data”
- Janie McDonald, M.S. in Mathematical Sciences (May 2015), “An exact test for binary data using weights and empirical Bayes estimates for cluster level success probabilities”
- Paran Norton, M.S. in Mathematical Sciences (May 2015), “Adjustments for treatment by block interaction in a genetics study”
- Garrison Stevens, M.S. in Civil Engineering (December 2014), “Stochastic wavenumber estimation: Damage detection through simulated guided lamb waves”

PROFESSIONAL DEVELOPMENT

- 212 Professional Development Hours, Educational Testing Service
- Data Visualization Using R*, Training Session, Clemson University (February 2018)
- Version Control Using Git/Github*, Training Session, Clemson University (October 2017)
- Computational Challenges in Neuroimaging Data*, Roundtable, Joint Statistical Meetings (August 2016)
- SAMSI Challenges in Functional Connectivity Workshop*, Statistical and Applied Mathematical Sciences Institute (April 2016)
- SAMSI Challenges in Computational Neuroscience Opening Workshop*, Statistical and Applied Mathematical Sciences Institute (August 2015)
- SAMSI Computational Neuroscience Summer School*, Statistical and Applied Mathematical Sciences Institute (July 2015)
- Emerging Trends with National Foundations*, Clemson University ADGRS Seminar (March 2015)
- Introduction to Advanced Computing and the Palmetto Cluster*, Training Session, Clemson University (August 2014)
- The Design and Analysis of Experiments that Use Computer Simulators*, Continuing Education Course, American Statistical Association (August 2014)

An Introduction to High-Performance Computing with R, Tutorial, International Biometric Society (March 2014)

Nonparametric Bayesian Data Analysis, Tutorial, International Biometric Society (March 2014)

PUBLICATIONS
